One-Day Workshop Event

Purpose:

- To increase the knowledge of perinatal providers in Alberta about **problematic substance use in pregnancy** (PSUP), including alcohol, tobacco, cocaine, marijuana and prescription opiates

Participant Commitment:

- After the workshop, participants are encouraged to present their new learning to colleagues
- PRIMA materials are available on request

Workshop Information:

- All expenses (meals, travel and/or mileage, and accommodation) will be the **responsibility of the participants**
- Workshop presenters are PRIMA members from across Canada
- This program is accredited for up to 8 Mainpro C credits

Course Objectives

After this workshop

Participants will be able to demonstrate increased knowledge and skills around problematic substance use in pregnancy (PSUP), including:

- Screening and identification of women with PSUP
- Management and/or referral of women with PSUP
- Screening and assessment of Fetal Alcohol Spectrum Disorder (FASD)

Participants will receive a clinical management reference and resources for teaching community presentations.
